12 November 1974

MEMORANDUM FOR: Deputy Director for Administration

ATTENTION : DD/A Plans Staff

SUBJECT: Status Reports, Office of Medical Services Objectives, FY 1975

REFERENCE: Your memo, dated 31 July 1974, Subject-Management Conferences - FY 1975

- 1. In accordance with referent instructions, attached are six (6) copies of status reports on the Office of Medical Services Objectives and Action plans for FY 1975.
- 2. As a result of the Management Conferences on 26 September 1974 and our own internal reviews, the following changes have been made in the objectives stated below.
 - B 57203 Assessment Centers
 Objective statement revised and new
 milestones, la, lb, 4 and 5, added.
 Completion date of milestone #3 moved
 from 1 October 1974 to 31 January 1975.
 - B 57204 Behavioral and Social Sciences "Sensing Devices". Milestones and completion dates revised.
 - B 57205 Behavioral and Social Sciences "Agency's Subculture". As previously indicated, a revision of this objective is recommended, and in this regard a proposed study on "Career Commitment" is attached for DD/A review and approval.

QQNFQENTAL Approved For Release 2002/05/08 : CIA-RDP78-05345A000100150014-6

SUBJECT: Status Reports, Office of Medical Services Objectives, FY 1975

B 57206 - Annual/Executive examination program.

Objective simplified and milestones revised.

3. There are no other items recommended for discussion at the 20 November Management Conference.

John R. Tietjen, M.D.

REMARKS

Objective - revised in accordance with the discussion at the 26 September 1974 Management Conference.

General

At a meeting with D/JCS on 12 September 1974 a discussion of the assignment of internal responsibilities for the Center eventuated in a charge to PSS to design and introduce to OJCS managers an overall system in which responsibilities, communication channels, and action plans based upon Center findings were to be delineated. This introduced two new milestones into the process, (la and lb), and in effect, provided a broader "system" concept in which the Center (now designated the "Management Development Center") will operate. This system, designed in consonance with the DCI's guidelines for a personnel management program, was presented to OJCS managers on 11 October to the OJCS Career Service Panel on 8 November. It is in this context that the selection and training of assessors will now proceed, with revised completion dates as indicated.

FOOTNOTES

- #1. This milestone is added with the notion that some review of the experience gained to date will be in order.
- #2. Logically, there is no reason why the initiation of an effort in another Directorate need await the conclusion of this effort in OJCS, and PSS stands ready to explore such possibilities at any time. As a practical matter, we note the reluctance of other components to start down this road until some experience base is available. While this seems sound from one point of view, we would note that the needs of other components are very likely sufficiently unique that the generalizability from this one experience is apt to be limited. An "assessment center", in other words, is, and should be, a different thing to different people.

OMS DD-LEVEL OBJECTIVE B 57205 FOR FY 1975 PROPOSED STUDY ON CAREER COMMITMENT

Facts and Assumptions

- 1. The Agency is losing many good professionals via voluntary separation.
- 2. Any organization which recruits large numbers of able and ambitious people is bound to lose many of them.
- 3. There is no satisfactory empirical or philosophical answer to the question "how many is too many?"
- 4. One answer: "too many" is when the pool of survivors from which senior positions must be filled has shrunken to the point where those available are less able than those who have left.
- 5. Such evidence as we have suggests this has not happened.
- 6. Nevertheless, the serious consequences of this possibility make it incumbent upon management to study the process by which decisions to stay or leave are made, and variables which determine the decisions.
- 7. The process is an on-going individual decision-making activity best studied via structured depth interviews.
- 8. Attitudinal variables, perceptions of opportunities to achieve goals within and outside the organization, cultural variables and economic indicators are the primary variables in this process.
- 9. Background, demographic, and "status" variables (position, experience, grade, education, marital status, etc.) also merit examination for possible relationship to the decision process, regardless of whether or not the

IN TARREST OF THE STATE OF THE USE OHLY

Approved For Release-2002/05/08 : CIA-RDP78-05342A000100150014-6

individual "perceives" these variables to be relevant.

10. A study of process and variables may provideguidance to management on Agency policies and practices in the areas of recruitment, training, personnel development, promotion, and job enrichment conducive to the retention of the "best" people.

General Outline of Proposed Study

1. Two phases: those who have left ("Leaves") and those promising people on board who constitute the present pool from which management expects to fill senior positions in the next 5 to 10 years ("Comers").

2. Leaves

- a. Depth interviews of a sample of 50 to 100 professionals six to 18 months after separation to determine variables which influenced decisions to leave and process by which decision was made.
- b. Primary purpose is to gain information to use in tracking Comers.

3. Comers

- a. A five-year longitudinal study, using annual depth interviews to track the career commitment process as it evolves, focusing on variables mentioned above, as enlightened by information obtained in study of Leaves.
- b. Comers, 100 to 150, Agency-wide sample, 5 to 10 years Agency service, promising individuals with potential for filling senior positions.

4. Resources

- a. An in-house study director, with interviewing of Leaves to be done primarily by contract personnel, possibly recruited from among former Agency employees.
- b. Study of comers to begin only after interviewing of Leaves is substantially completed. Both in-house and contract personnel involved.
